CANTON, March 20.—Officer Caffrey of the local police force and a "yegg" who attempted to break into the Ponkapoag postoffice had a running gun fight early today, in which four shots were fired.

The "yegg," who escaped, was trying to break into the postoffice. Officer Caffrey ordered him to throw up his hands. The man started to run, and the officer attempted to shoot him with a rifle, but the weapon refused to work. He then drew his revolver and fired two shots, which were immediately answered by two from the man.

The blacksmith shop of Thomas Ward was also entered, and a small quantity of goods was taken.

WASHINGTON, March 30.—The torpedoes fired by the ship which has been sinking the maneuvers in St. John's Bay, Fla., has been placed by a torpedo, according to the Bureau of Naval Affairs, today, and has been obliged to put it at the bottom to look for repairs.

The extent of the accident is not known, as Captain Lewis H. Lefler, commanding the ship, has not decided how it is not to be the damage is serious.

SEWER BASINS

Financial Commission Reveals Many Startling Conditions in Report.

PRESENT SYSTEM IS BAD

That 50 per cent. of the \$117,400 spent for cleaning sewer catch basins during the fiscal year 1907-8 was wasted is the report of the Finance Commission. Mayor Hibbard today in a statement to the public health.

It finds that the price paid for cleaning

the basins, \$5 per basin, is excessive, and condemns the system of awarding the contract to the lowest bidder. It finds that in one instance a contract was awarded for cleaning 10,000 basins, while in another contract basins were not cleaned.

City Paid in Excess.

Contracts were let for cleaning basins in which the depth was less than half a foot, while other basins in which the depth was over four feet were cleaned. The city paid \$5 each for cleaning these basins, the estimated cost for the first by day labor is \$1.24. The report says that the department often planned to give the favored contractors the least work. The commission finds the catch basins are in a state of disrepair, and that the cost during the two years, 1906 and 1907, was \$17,900. The number of inspections by the city inspectors varied from three to six basins per day per day, while the inspectors employed by the Finance Commission inspected 100 basins per man per day.

Recommend Changes.

The commission finds that no adequate records are kept by the department to enable an estimate of unit cost of cleaning, training, inspection, etc. It recommends a consolidation of the services and the abolition of the present system of contracting for the work so that a fair day's work may be secured. That contracts for cleaning basins be let by the commission, and the price to be paid for the work, to be determined by the commission. That all existing catch basins be located and mapped, and the work to be done by the city be determined. That bills for contract cleaning be approved by the department.

BERKMAN ARRESTED, RELEASED IN COURT

NOTED ANARCHIST WILL BE RE-ARRAIGNED TO-MORROW ON A NEW CHARGE.

NEW YORK, March 30.—Alexander Berkman, who served a long prison term for trying to kill H. C. Frick, who afterward signed as Emma Goldman's common law husband, and is probably the best known anarchist in America, was arrested on a suspicion given today in connection with the bomb throwing by Selig Silverstein in Union square Saturday.

In Silverstein's pocket a card of the "Anarchist" "Fostered Union" was found, bearing Berkman's signature. It was especially regarding this card that the police wished to question the arrest.

Detective found Berkman at his lodging at No. 210 East Twentieth street and took him before Inspector McLaughlin. The prisoner was uncommunicative at first, but the inspector induced him to write his name, however, compared it with the signature on the card, produced the card, and arrested him immediately.

Berkman is Paroled. He was taken to Bellevue, where he talked with Silverstein, the bomb thrower, but failed to identify him. He was later arraigned as a suspicious person before Magistrate Drake in Jefferson market court, and the magistrate refused to hold him on that complaint.

The magistrate refused to hold him on the complaint of Detective Wernick, who had taken Berkman to his apartment, where he will be held until he is released. He said he would go home and wait for the police.

Refer to Pick Case. The Attorney General has referred the case of the Pick case to the Attorney General.

Is It a Man's Duty to Guard His Wife Against Follies?

By Dorothy Dix

WHEN a man marries a woman, he swears before God and his fellow men to love and protect her. The first of these promises is a man's duty to guard his wife against follies.

Duty to Guide Her

Of course, there are exceptions to all rules. There are men who are so weak and so foolish that they are unable to guide their wives.

A Breeder of Deceit

There is no surer way to make a man a liar than to let him see that he is being deceived. A man who is deceived will lie to protect himself.

Lazy or Careless?

It was the wife's fault, and it was the husband's fault. It was the wife's fault for being lazy and careless, and it was the husband's fault for not being more attentive.

EXTRA. Battling De Sagan Offers to Fight Spike Castellane and Two Brothers

Tad Tells of the Challenge and Pictures Both Champions.

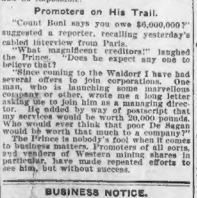

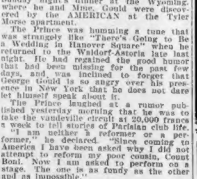

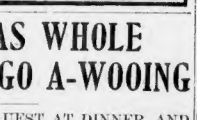

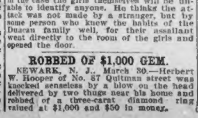

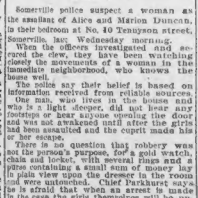

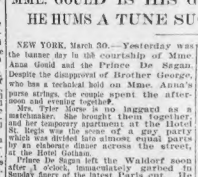

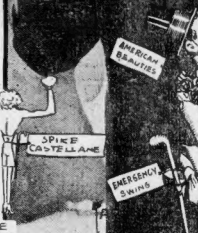

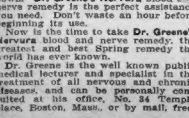

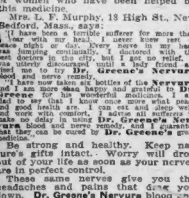

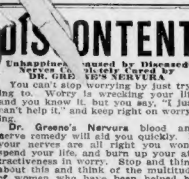

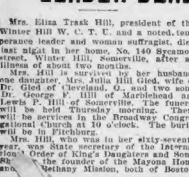

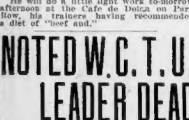

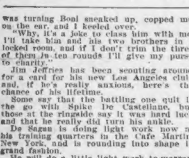

By TAD.

NEW YORK, March 29.—Battling De Sagan, the great French lightweight, has offered to take on Spike and his two brothers in a three round fight.

The fight will be a real one, as the champion is only a few days from his home in France, and he is in the best of health.

De Sagan lost to Best in a round last year in Paris, but claims his foot slipped, and that the referee was a fool. In speaking of the fight last night, he said:

"This fellow, Spike Castellane, is only a fourth rate man. On the level, he couldn't punch a hole in a screen box, let alone knock me out. Why, we were only sparring for an opening the last time we met, and in turning to mix a bit of mine at the bridge, my ankle turned, and while it
